

MVP™1000

Function

MVP™1000 van locking solution was designed to fortify the security of commercial vehicles, in particular, those carrying valuable goods and equipment.

Simple to install and use, MVP™1000 fits both rear and side doors and is compatible with a wide range of vehicles.

Applications

Using a sliding Hasp locking system, MVP™1000 is applied to commercial vehicle cargo compartment doors and can be used for other applications with similar needs or structure, for example: entrance doors (single or double), electrical cabinets etc.

Benefits

- Dust cover
- Keyless locking – push to lock
- Robust aluminum lock body structure
- Simple installation. Can be easily self-installed.

Cylinder mechanism

Mul-T-Lock's patented, high precision pin tumbler system.

Keys

Reversible nickel silver key with plastic key head and colored insert for identification.

Cylinder platform

MTL™300

Keying options

- Keyed different
- Keyed alike
- Master keyed
